### Office Action Summary

**Application No.**

10/546,006

**Applicant(s)**

LEE ET AL.

**Examiner**

HENRY S. HU

**Art Unit**

1796

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on Pre-Amendment of August 18, 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-17 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 1-17 are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 18 August 2005 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some \* c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☒ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

1. It is noted that Applicants' **Pre-Amendment** and one **IDS** (1 page) are filed so far. This Application is a **371/PCT/JP04/01868**. With such pre-amendment, **Claims 2-8, 11 and 13-17 were amended, while no claim was cancelled or added**. To be more specific, the involved Claims 2-8, 11 and 13-17 were amended in **three** ways as: (A) to remove internal periods, (B) to correct a typographical error and (C) to eliminate improper multiple dependency. The examiner **accepts Applicants' one drawing sheet with Figures 1-2** filed on August 18, 2005 with this application (a brief description is on page 6). **Claims 1-17 with a total of three independent claims** (Claims 1, 9 and 12) are now pending. An action follows.

## **DETAILED ACTION**

### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1, this is based on the preliminary search done by the examiner as well as by examining the references cited in international search report and IDS filed by Applicants. It is noted that all four independent claims are marked with an underline and are combined with its dependent claims.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted as following: It is noted that **three independent claims are marked with an underline**

I. **Claims 1-8**, drawn to **a heat-meltable fluoropolymer composite composition** comprising two components including: (A) **a heat-meltable fluoropolymer fine powder** and (B) **a layered-compound** organically modified with tetraphenyl phosphonium ions.

II. **Claims 9-11 and 12-17**, drawn to **a process of making** (Claims 9-11) a heat-meltable fluoropolymer composite composition of Group I as well as **the product made by this process** (Claims 12-17).

3. Where the group of inventions is claimed in one and the same international application, the requirement for unity of invention referred to in Rule 13.1 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression “**special technical features**” shall mean those technical features that define a contribution which each of the claimed inventions considered as a whole, **makes over the prior art**. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, although they share the special technical feature, this special technical feature does not define a contribution over the prior art for the following reasons:

Art Unit: 1796

4. In view of Examiner's own prior art search as well as the references or articles cited in **one IDS** filed so far by Applicants, **Claims 1-17** is either obvious or anticipated by following: **US 5,962,553 (and its equivalent WO 98/10012) to Ellsworth and US 6,841,211 to Knoll et al.**, each individually or in combination. In summary, these two groups have no common features in the preparation as well as its application since they are structurally different. The scope of the claims, i.e., the metes and boundaries are distinct. Accordingly, the special technical feature linking the inventions, the heat-meltable fluoropolymer/layered compound composite composition for each group does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore the restriction is appropriate.

5. With respect to the fact that "both groups are structurally different each other", Group I was drawn to a heat-meltable fluoropolymer composite composition, while Group II was drawn to a process of making (Claims 9-11) a heat-meltable fluoropolymer composite composition of Group I as well as the product made by this process (Claims 12-17). Although the subject matter from each group may comprise the same or at least similar fluoropolymer and modified/layered compound, its structure, function and application are indeed different. It is noted by Examiner that claims for process of making is joined with the claims for product made by this process according to MPEP. Groups I and II are thereby not interchangeable.

Art Unit: 1796

6. Because these inventions are distinct for the reasons given above shown as different subject matters and the search required for each group is not required for other groups have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

7. It is noted that no phone call was made to **Robert Mukai (registration # 28,531, tel: 703 836-6620)** by the examiner to request an oral election to the above restriction requirement due to the complexity on two distinct groups along with **three** independent claims. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

***Conclusion***
